

# Kuiper – Pocket Interview Cheat Sheet

## 1. Leadership

- Team scaling → skills, hire, mentor, deliver.
- Conflict → align, phased rollout, deadline met.
- Mentoring → goals, pairing, stretch projects.

## 2. Technical

- Data vs. Control plane → throughput vs. reliability.
- High loss → PHY (coding), QUIC, FEC.
- Security → root trust, signed FW, OTA.
- RF driver → SPI/I2C, init, interrupts, ISR.

## 3. Strategic

- Roadmap → reqs, metrics, dependencies, priorities.
- Innovation vs. reliability → sandbox, shadow, phased rollout.
- Why Kuiper → mission, OSI breadth, fit, growth.

## 4. Questions for Them

- Biggest challenge this year?
- Team collab across OSI layers?
- Team scaling vision 2–3 yrs?
